

Press Release

Biodiversity and Environmental Sustainability (BEST) Signed MoU with Raila and Raila 2 Panchayats to Foster Green and Sustainable Communities

New Delhi, India – August 22, 2024 – Biodiversity and Environmental Sustainability (BEST) is pleased to announce a groundbreaking partnership with the Raila and Raila 2 Panchayats. This collaboration aims to promote knowledge exchange, joint efforts, and innovative strategies to transform Raila and Raila 2 into green and sustainable panchayats.

The partnership will focus on several key areas:

1. **Biodiversity Conservation:** Implementing projects to protect and enhance local biodiversity, including the creation of green spaces and wildlife corridors.
2. **Waste Management:** Developing efficient waste management systems to minimize pollution and promote recycling.
3. **Sustainable Agriculture:** Promoting eco-friendly farming practices that enhance soil health and reduce environmental impact.
4. **Community Engagement:** Encouraging active participation from local residents through educational programs and citizen science initiatives.
5. **Water Conservation:** Identification and advising on restoration and rejuvenation of water sources.

Dr. Virat Jolli, President of BEST said that we are excited to collaborate with the Raila and Raila 2 Panchayats. This partnership is a significant step towards creating sustainable and resilient communities that can serve as models for other regions. **The Pradhan** of Raila and Raila 2 Panchayats has expressed their willingness to working closely with BEST to implement innovative solutions that will benefit both our environment and our community.”

About BEST: Biodiversity and Environmental Sustainability (BEST) is a leading organization dedicated to promoting environmental conservation and sustainable development. Through research, education, and community engagement, BEST aims to create a healthier and more sustainable future for all.
